

Thinks

ordinary and necessary -costs incurred to operate our business

What can we imagine them saying?

the business main focus marketing it's a basic needs because economically company depends on it even as focus expenditure and man power

There are various expenses like space rent, salary and wages, infrastructure, documentation, and other organisational expenses that add up to a complete estimation of business startup costs

businesses subtract their expenses from their revenue to determine their net profit or loss and taxable income

an approximate projection of future expenses incurred in goods production or completion of a project.

> Estimation Of Business Expenses

> > Short summary of the persona

the business expenses is most important role is planning and decision making for expenditure and income

I shall focus all HR ideas and dedication and consult how it feel work and improve the work

Most of the thinks business expense is based on the expenditure and income moreover how to improve critical situation plan before for all situation

minimize the expenditure and maximize the income and also they will improve th estatus and maintain the good status not to degrade the status for any activity

Shall play a vital role for the society improvement

It's most important role for the company development and national development

Shall I feel like it very good and work to be proud of the important place I will do my best for all time

Does

What behavior have we observed? What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties? What other feelings might influence their behavior?
